

# bridal shower MASH

## HOW TO PLAY

### What do you need?

- Bridal Shower MASH game cards, and pens/pencils for each guest
- A designated "game master" or facilitator to explain the rules
- A prize for the guest with the funniest or most accurate prediction (optional)

### How do you play?

- Give each guest a MASH game sheet and a pen. The MASH sheet has categories for various predictions and each category will include 4 possible options.
- To get started, advise guests to fill out the categories with their own 4 creative choices. For example, under "honeymoon destination" they might write Paris, a tropical island, or even the moon! Encourage guests to be creative and include at least 1 out-there choice!
- The game master will guide everyone to draw a spiral on their sheet until they say "stop". The size of the swirl will be different for everyone, and the guest has to count the number of loops drawn to determine their "magic number"
- Now begins the elimination process using the "magic number". Starting with the MASH options at the top and moving down through each category, count each option until you reach the magic number. When that number is reached, cross off the option you landed on. Then start your count again, continuing around the page – skip the marked-off options – until you only have 1 option left in each category.
- As each prediction category is narrowed down, the player will be left with their final fate—whether it's an ideal job or an unexpected number of pets! The suspense of the game builds, and guests can't wait to see what unique or dreamy predictions will be made. Let guests take it in turns to share their views of the bride's "future".

### Extra Tips

- To make the game even more tailored, ask the bride beforehand for her preferences or quirky wishes, then pre-fill those in the categories. It's a great way to inject personality into the predictions.
- The fun of MASH is in the unpredictability! Whether the bride's future includes a glamorous mansion or a cabin in the woods with ten cats, it's all about having a good laugh and creating great memories.
- Prize Ideas: You could offer small prizes for the most creative, funniest, or most "accurate" prediction. It's a nice way to keep everyone engaged.
